the evening sun, has found someone, a true love, such as this

the moon light: majestic, the song s remedy

meandering moments of sincerity
C **G**
the mountain: in motion, tonight comes alive
Am **F** **C Am F G**
as the golden brown sand, slips through your hand....tonight....

C **Am** **F** **G**
pondering purple pedals, whisper secrets, to the wind

whether we re together, doesn t matter, one bit
