**Dont Drop That Bomb On Me**
**Bryan Adams**

[Intro]
**F5  G5  A5  B5 C5**  (x2)

     **F5**                    **G5**
We sailed our ships upon the shores
       **A5**                 **B5    C5**
That once were out of reach
**F5**                  **G5**           **A5**                    **B5    C5**
Turned the silence into war and bloodied up the beach
**F5**                 **G5**
Trashed the forests and the trees
               **A5**                **B5  C5**
 Til there s nothin  left to cut
      **F5**                **G5**              **A5**                      **B5  C5**
We raped the rivers and the seas and turned the land to dust
         **F5**     **G5**
It goes on and on
**A5**       **B5**    **C5**
On and on...

Yeah!
