

**She Knows Me**  
**Bryan Adams**

*Intro:* **A B E** x2

*Verse:*

**A** **B** **E** **A** **B** **E**  
Winds will come and winds will go and the seasons always change

**A** **B** **E** **B**  
But the light that shimmers in her eyes -- stays the same

**A** **B** **E** **A** **B** **E**  
Yeah the sun will shine and the moon will glow and the world will always turn

**A** **B** **E** **B**  
Theres a constant fire inside of her -- that always burns

**E** **B**  
She knows me -- every corner of my soul

**A** **B**  
She knows me -- the way I come the way I go

**E** **B**  
She told me -- theres nothing I can show

**F#m** **A**  
That she don't know about me

*Verse:*

**A** **B** **E** **A** **B** **E**  
Round and round and round we go -- neither here or neither there

**A** **B** **E** **B**  
All I know without her in my life -- i'd be nowhere

**A** **B** **E** **A** **B** **E**  
Well, feelings come and feelings go but some things never change

**A** **B** **E** **B**  
like the light that shimmers in her eyes -- it stays the same

E B  
Oh She knows me -- when I'm wrong or when I'm right

A B  
She knows me -- in the middle of the night

E B  
She tolds me -- and I dont say a word

F#m A  
cuz words could never save me and I say

E B E A  
Oooh oooh ooh -- oooh oooh ooh

E B A G  
oooh oooh ooh oooh oooh -- she knows me

*Bridge:*

G D C G  
She's got a permanant hold on my heart, yeah

G D C  
and I'm learning to live with the lonelines

D E  
when we're apart

B A  
Every little way -- she knows me

B E  
When there is nothing left to say -- she holds me

B  
and time just flies away

(F#m) (A)  
cuz being with her is so easy

E B  
She knows me -- every corner of my soul

A B  
She knows me -- the way I come the way I go

E B  
She told me -- theres nothing I can show

F#m                      A

E                      B                      E                      A

E                      B                      A

E                      B                      A

E                      B                      A
