She got the brains, she got the looks,  
C#           F#           G#  
She knows all the right people, reads all the right books.  
C#           F#           C#           F#  
She s got my name, she s got my number,  
C#           F#           G#  
But what she see s in me, I sometimes wonder.

She s a little too good for me,  
           C#           G#           F#  
She s gonna change me if I let her.  
           C#           G#           F#  
She s a little too good for me,  
           C#           G#           F#  
But I m getting better...
```

I m just a guy, I m just me,  
C#           F#           G#  
I m happy with my feet up on the table, in front of my tv.  
C#           F#           C#           F#  
We re world s apart, we re night and day,  
C#           F#           G#  
She s dinner by candle light, I m just a take-a-way.
```

           C#           G#           F#  
She s a little too good for me,  
           C#           G#           F#  
She s gonna change me if I let her.  
           C#           G#           F#  
She s a little too good for me,  
           C#           G#           F#  
But I m getting better...
