Intro:

B A F# G# F G

Verse

B **A** **F#** **G#**
I knew there d be times like this when I d sit at home and reminisce
F **G**
Oh, how one s memory slips
B **A** **F#** **G#**
So I close my book and sighing, take a second look
F **G**
Sure enough - I m quite alone
B **A** **F#** **G#**
Still, there s no sound, so I spin-a-disc around and round
F **G**
And slide the needle in the groove...

Pre-Chorus

B **A** **E** **B**
Drive down any highway, baby, but don t bid me adieu
B **A** **E** **B**
Through a sea of twisting byways I ll be trailing you
B **A** **E** **B**
Eternity will solve our problem, take it as you may
B **A** **E** **B**
And destiny will stand corrected, should we connect some day

B **E**
Another time to spend
B **E**
Another place to go
B **E** **F#**
Another love to share with you

B **A** **E** **B**
Deep emotion springs from this life, wells up inside

Quick, pick me up and pour me over, the clouds crying by
