(Tune the guitar down to **C**.

F                            Eb
Tonight              Both ends burning,

C#                            C7
burning,                      burn
```

Now my course is plain as day Running bold across to play
Both ends burning with a strange desire That feeds the fire in my soul
tonight I will dance the night away Living only for today
Both ends burning while you re counting sheep Hell, who can sleep in this heat
this night?

Tell me will I ever learn?
It s too late, the rush is on
Both ends burning and I can t control
The fires raging in my soul tonight
Oh will it never end?

Put your foot around the bend
Drive me crazy to an early grave
Tell me what is there to save tonight
Both ends burning, burning, burn
Keep on burning till the end, until the end
Keep on burning till the end, the very end.
