Catch me falling finally

Through the air and underground  
Everywhere this sound  
Screams and whisper  
I can t breathe

I feel it in my bones  
Though I know I m not alone  
You re spinning far too far from me

So cruel to be so kind  
Now I know I ll always find  
This island earth a mystery

Solo: as version    |x2

As I stumble through the dark  
Dream lovers dream apart  
Starry eyed a vision rushes in

Do I wonder or care  
My spirit s bleeding God knows where  
A never ending stream

I tried to love, tried to find  
My soul in shadows running blind  
And restless as the sea

Via sidewalks through the haze  
Wandering as in a maze  
Lost in number time and space

So near and yet so far  
Castaway as strangers are  
This island earth  
And you and me
