## Petty Lies Bryarly Bishop

My friend and I recently discovered this song and love it!! You can buy it on Bandcamp.com where she also posted the chords. This girl is amazing :) All credit goes to her.

```
Standard Tuning
Capo 6
My ankles keep clicking
My ideas keep sticking
I wish that I had less time
But I m tired and tested
My heart double-breasted
And I m waiting to lose my mind
I m loosely configured
And often delivered
                      C
In packages tied with twine
I m easily dented
And partly demented
And I m not even sure I m mine
G
        Am
I don t mind
        Am
I don t mind
I don t mind that I mind
I don t mind that I mind
I don t mind
G
My fingers are cracking
```

D

```
My spirit is lacking
I wish I knew what to do
But I m slowed up and mindless
Deliberately kindless
And I can t ever tell what s true
I m heartlessly hopeful
And childishly woeful
My colors are tinged with blue
I know all my demons
Their names and their seasons
But I m still getting used to you
G
       Am
I don t mind
       Αm
I don t mind
       Am
I don t mind
G C
I don t mind that I mind
