

Every Other Way

Bt

BT feat. JES - Every Other Way

Simple chords, as with my other songs :) I was inspired to put this up after hearing a

cover of the song on YouTube by Michelle Do, found here:

<http://youtu.be/874WmmFHZlo>

When I couldn't find the chords on here, I said she should put them up, unless she would

rather I put them up and give her credit. She said it was fine with her for me to put

them up, so yeah. Just to clear that up in case I got accused of stealing these from her :)

With the second D of the chorus, you could play Bm7 to give a bit of variation, but it's

not necessary - it's down to personal preference really, both work.

Standard tuning.

Capo on 2nd fret.

Verse one:

G **D**
Is it strained, when I call you
 G **D**
Or do you think, that I might forget
 G **D**
Oh your love, is radiating
 G **D**
The farther away I go
 C **D**
I go

Verse two:

G **D**
Do you count, on me now
 G **D**
And do you wait, up for me all night
 C **G** **D**
I wish I could run, to you when you need me
 G **D**
You know I can't be far for long
 G
For long

Chorus:

C **G** **D**
Heart don t fail me now
 D **C**
Cause there is no time to waste
 G **D**
Don t shut me out,
 D **C**
We shouldn t wait another day
 G **D** **D** **C**
I ve searched for you, on my hearts high speed chase
 G **D** **D** **C**
Hear me out, may be the only chance to say
 G **D** **D** **C**
Hold me now I ve said it every other way.

[Bridge :]

C **G** **D**
These tears I ve cried
 D **C**
More moments gone to waste
 G **D**
I ve searched for you
 D **C**
I ve said it every other way

D

[Chorus :]

C **G** **D**
Heart don t fail me now
