Where does the good times go

F# **E** **B**
Where does the river flow

B **E**
Where does the north wind blow

Where does the good times go

B **E**
Lips that used to burn with love

F# **E** **B**
Now are cold beneath my touch

B **E**
Still I love you oh so much

Where does the good times go

Arms that used to hold me tight

Eyes that shone with love so bright

Now have changed like day to night
