

**Have You Ever Been Lonely**  
**Buddy Holly**

I have been looking for some chords for this song with no luck so, I thought it  
s  
time to give it a shot.  
It s not exact but close, any improvements please let me know, this was just a  
little guess work for me.

The intro sounds kinda weird to me because of the recording I have but I play  
the  
second verse chord section  
and it works.
