

Fly Around My Pretty Little Miss
Built To Spill

Transcribed by John Crowell

It s best to play this song with open chords and kinda bluegrass style
It s in standard tuning

```
e-----0-----0-----|
B-----1-----2-----|
G-----0-----2-----|
D-----2-----2-----|
A-3-----0-----|
E-----|
```

Like so

And when I say F*, I mean F like, instead of the barre chord
like is used in the verse.

```
e-----1-----|
B-----1-----|
G-----2-----|
D-----3-----|
A-----3-----|
E-----|
```

So here it goes

Intro- C

```
C           A           G           F
I know you re making accidents and stars for everyone
C           A           G           F
you re amazing half of them won t know until you re gone
C           A           G           F
and in this ritual you take command and lose control
C           A           G           F
and in this situation find an ocean, sell your soul
```

```
F *           C
fly around my pretty little miss
why don t you
F*           C
fly around my pretty little miss
why don t you
F*           C
fly around my pretty little miss
why don t you
F*           C
```

and all the signs of your life

F*

C

you re making all time alright

F*

C

and all the lines of your life

F* C

you make it fine

C A G F
and when it s later open up your window just in case
C A G F
you re a radar built to scan the deeps of outer space
C A G F
and if you recognize subtle patterns in the sky
C A G F
don t take it as a sign unless it eases your mind

C
why don t you
F* C
fly around my pretty little miss
why don t you
F* C
fly around my pretty little miss
why don t you
F* C
fly around my pretty little miss
why don t you
F* C- let it ring out baby!
fly around my pretty little miss

All in all, a pretty perfect pop song.

Have a great day!
