PLANTING SEEDS

G D C D 3x
G D C D4 D Dsus2 D

G D Am
I d hand it to time if I knew where the time had gone
C Em
the connoisseurs were wrong
Am
and so was everyone else

I know what they re saying cuz that s all they talk about
just need to figure out
some shit for myself

D Am
and just because it s obvious doesn t mean it s even true
D Am
heard it all and I believe that we deserve another point of view

G
we can make it if we try
D Am
and if we don t it s gonna still be alright
G D Am
cuz our minds are still alive
G D Am D
and we can decide why

G D C D 2x

make up your mind make up your own mythology
afraid of finding me
and of defining you

take what you want but you won t want it where your at
I know this for a fact
just because it s so true

the first place my mind goes is where I never want it to
like where it hurts the most or all the stupid shit I say and do

you can make it if you try
and if you don it s gonna still be all right
cuz our minds are still alive

and we can decide what s right

Am

G

D

telling me thousands of times what s next to want
just doing their job but you know that s a dirty job
can t stand this game still we re bullied to play along

Bm

C

G

when bullies grow up they get meaner

A

yeah they really get it down
oh yeah

they think that they get it but they always get it wrong
they ll play your favorite song
just to sell shit to you

I ve heard that they ll sell anything and I think they might
I think Bill Hicks was right
about what they should do

and just because you love something doesn t mean it s yours to buy
been selling it so long that no one even knows the reason why
you ve been messing with our minds
gettin rich wasting our time
