Lyrics:

the mind is all we kiss everything
we say we love it s the skin we re in
you re a retrograde a vacancy
you re the one i love
the hate in me
lazy day on a darker breed
to have is not what it s made to be
you come alone on a mass attack
sucking your tantric suck
fooling your one-eyed cat

we don t mind

we deviate our gravy brains
set em on fire they re all the same
i m a lionface
no sancho panzo
i m riddled by you
i could ve been better

i m a monkey on a drip
sucker monkey on a drip

you take such pretty photos
when will you be worthy of your good side

where will you be
when the clouds break
and it all takes
just a little more than you have
we don't mind
