

## The Sound Of Winter

Bush

**Em**

Mind strong  
Body strong  
Try to find equilibrium

**C**

Head straight  
Screwed on

**Em**

We re screwed up for too long

I don t want to lean on the waves  
I watch the storm evaporate

**C**

I think of you in stary skies

**Em**

I keep you so alive

**A**

**G**

Let s walk through the fire together

**Em**

Disappear in the golden sands

**C**

**Am**

It s all in your face

**Em**

I see you break

**D**

It s like the sound of winter

**C**

**Am**

The bleeding love

**Em**

The silent escape

**D**

You got to hang on to yourself

**C**

**Am**

It s like the sound of winter

**Em**

Medusa smiles

Judas lips

Open arms

Finger tips

Love bites and recompense

**Em**

I ll be with you

Until the end
