E A

Everybody sleeps

Dbm

A

But I haven t done that in the last few weeks or so

E

A

And yeah, I know the remedy

Dbm

But they ran out yesterday

A

I can t re-fill anything

E

Especially my heart. Especially my brain

F#

A

If I could bottle up this mess I could do it all again

E

And I don t wanna know if there s another part of me

B

Don t wanna feel if I m alive

Dbm

Don t wanna smell the bed where we used to sleep

I m gonna miss it again, miss it again

E

Just wanna walk away from the ashes

B

And take the fact that I ve been burned

Dbm

And maybe let you know I m still standin

A

If you miss it again, miss it again, I m around

E E6 E E6 A
E E6 E E6 A

E A
And you, you were down the street
Dbm A
And I watched you through the windows draped with sheets so white
E A
And yeah, it looks a lot like me
Dbm A
Is it a comfort that you needed or coincidence that s everything
E
Especially my eyes, specially my clothes
F#
But does it move you inside out
A
Maybe I don t wanna know!

E
And I don t wanna know if there s another part of me
B
Don t wanna feel if I m alive
Dbm
Don t wanna smell the bed where you used to sleep
A
Gonna miss it again, miss it again

A
Just wanna walk away from the ashes
B
And take the fact that I ve burned
Dbm
And maybe let you know I m still standin
A
If you miss it again, miss it again I m around

E E6 E E6 A
E E6 E E6 A

F# A
And all the times you wanted out, you never said a thing about
Dbm A
How we would just become the ships inside of a bottle
(A) (E)
Breakin down, sails fallin off
(A) (E)
Tryin to stay afloat inside a place you can t survive

A Am
Are we breakin down?

E

Cause I don t wanna know if there s another part of me

B

Don t wanna feel if I m alive

Dbm

Don t wanna smell the bed where we used to sleep

A

I m gonna miss it again, miss it again

A

Just wanna walk away from the ashes

B

Take the fact that I ve been burned

Dbm

And maybe let you know I m still standin

A

If you miss it again, miss it again, I m around
