CHORUS:

G C
So at last, Southern California
Sunsets like a long goodbye
Em D
I ve been dreamin about it for days
C
But I don t ask why

Interlude: G / / / / C / / / / (x2)

G C
I can feel it in my bones, it s a careless season
It started just the other day
And what d you expect, that just for no reason
I packed it in and drove away
Now I don t mean to pin this one on you darlin
It s time I found something good
Em D
When it comes right down, you re just one of many people that
C
Never really understood

REPEAT CHORUS

G C
As I drove into a city, painted on the desert
With everything ten miles high
Hard to believe that nobody will see
What I see through my bloodshot eyes
Now I don t mean to sound so young and naive but
I think we ve found something good
Em D
And now I can feel me leaving who I used to be
C
As I m drivin into Hollywood

PLAY CHORUS TWICE

G C
I can feel it in my bones, it s a careless season
It started when I woke today
And now that I m here, it s all so very clear
The reason that I drove away
Now I don t mean to call so early now darlin

But the waves just feel so good

Em

D

And I ll always come around to watch the sun go down

C

Just like you knew it would

PLAY CHORUS TWICE

END
