F# E

Love you more

It s my heart again
That drives me so wild
I just can t explain
Although I m not a child

So why would I cry if you ever left me
Maybe cause you re all I m livin for
With every heartbeat I want you madly

It s in my blood to always
Love you more
Love you more

Oh my love again
What I say is true
Though it may sound plain
I love you

And it means more to me than life can offer
And if this isn t true love then I am sure
That after this love there ll be no other
Until the razor cuts.
