Do you think the water knows, Flowing down the mountain thaw
G C G D G
Finally to find repose, For any soul that cares to draw
G C G D
Some kindred keepers of this earth, on their way to join the flow
G C G D G
Are cast aside and left to thirst, tell me now it is not so

All God's creatures share the water hole, The blessed day the monsoon comes
G C G D G
And in His image we are woven, Every likeness, every one
G C G D
From Kashmir to Karala, under every banyan tree
G C G D G
Mothers for their children cry, With empty jar and bended knee

G C G D
Share the well, Share with your brother, Share the well my friend
G C G D G
It takes a deeper well to love one another, Share the well my friend
