

**From The Bughouse
Caesars Palace**

This is my very first tab, but I think I ve got this thing right. It might need some adjustments, so feel free to take a look and make your corrections. Practically, it s just the same four chords over and over again, throughout the whole G, D, Em and C

Start of the song (keyboard)

Verse

G **D** **Em** **C**
Do you hear the storm out there?
G **D** **Em** **C**

Do you think I d even care?
G **D** **Em** **C**
If you were to pass me by in the street today.

This one goes to you

They better hold those right through your alibi.

I wish it would blow the whole town away.
