Skin And Bones
Cage the Elephant

[Intro] **Am   F   Dm   F**

[Verso 1]

Am   **F**
Close my eyes and drift into the silence
                          Dm
Barely see the ultraviolet
                                       F
Slipped and fell into the deep end
Am   **F**
Oh, the sidewalk shimmer just like diamonds
                                      Dm
All the empty words were flying
                                      F
Well, the heart was low, but I never was alone

I never was alone

[Refrão]

Am   **C**   **Dm**   **F**
I ve been running for so long
                             Dm   **F**
All that s left is skin and bones
    Dm   **F**
Close my eyes, fight to carry on
      Am   **C**   **Dm**   **F**
Sometimes it makes no sense at all
          Dm   **F**
If I stumble, will I fall?
          Dm   **F**
If I fall, I ll tuck and roll
              Dm
Close my eyes and let the love-light guide me home
          Dm
Let the love-light guide me home

[Verso 2]

Am   **F**
One step fades and falls into another
                                   Dm
I m not getting any further
                 F
Left you feeling like an alien
Am   **F**

All the shining sidewalks, they were lying
                             Dm
Lost myself while I was hiding
                                 F
And the heart was low, but I never was alone
         F
I never was alone

Hearts are empty almost all the time
      Dm   F
Blind devising ways to lead the blind

And it seems as if there s no end in sight
            Dm   F
I don t wanna be there when it all goes down
            Dm   F
But if I gotta be there, don t let me hit the ground
         F
Can I hit the ground?
