Cage the Elephant

Intro: **F#m C#**

Verse:

**F#m** **C#**  
Oh my precious ember burning my sweet glowing light  
**D** **C#**  
From the moment I first saw you I was yours and you were mine  
**F#m** **C#**  
Deep down we both knew you were trouble by design  
**D** **C#**  
And the echo of my mother s words baby don t you play with fire

Prechorus:

**F#m** **E**  
I was always playing that part  
**F#m** **E**  
first love always at that spot  
**F#m** **E** **C#**  
There was no way changing my mind

Chorus:

Hold B **Em** **C**  
Now I m under your spell, trapped in a lie  
**E** **C#**  
Shouldn t have stood that close to the fire  
**F#m** **D**  
No turning back, no where to run  
**E** **C#**  
No where to hide, it s too late to say goodbye  
**F#m** **D** **E** **C#**  
Push back from my heart, wish we go back to the start  
**F#m** **D** **E**  
But oh my God is this real no more time  
**C#**  
it s too late, it s too late to say goodbye
