Amylase
Cajun Dance Party

(**Am   C   F**)(2x)

```
         Am                                          C
   Lets not forget, lets not forget what happened in the past,
                               F                          Am
   You were right, you were wrong, yeah but everything was fast,
                                         C
   So when we build this ship remember to make it last,
                               F
   Increase the time it takes to paint and build the mast,

F       G         G#m5-     Am
   Lets save this game for never,
F             G               Em        C
   Or you know this could be chess forever,
F                   G
   I ll take your piece,
        G#m5-       Am
   Then you ll take mine,
F       G             G#m5-      Am
   Stalemate and we ve just wasted time,
```

(**Am C   F**)(2x)

```
          Am                                          C
   Yeah the past s the route of the growing that happens now,
                             F                       Am
   So lets remember not to turn on straight to a row,
                                       C
   We can see through the haze of misty glaze,
                           F
   So now lets travel positively forward through the maze,

F       G         G#m5-      Am
   Lets save this game for never,
F               G               Em        C
   Or you know this could be chess forever,
F                   G
   I ll take your piece,
        G#m5-       Am
   Then you ll take mine,
F       G             G#m5-      Am
   Stalemate and we ve just wasted time,
```

(**F   G   G#m5-   Am**)

```
   we ve just wasted time
```

```
    we ve just wasted time
    we need a catalyst
    we need a catalyst

Bb                              Gm
    We ll swim through the fields of hay
Bb                              Gm
    We ll swim through the fields of hay
Bb                              Gm
    We ll swim through the fields of hay
Bb                              Gm
    We ll swim through the fields of hay

Solo: (Bb Gm)4x

 Bb                                     Dm                 |
    You re the catalyst that makes things faster,         |
        Eb                      Bb                             |
```
