Who draws the crowd?

Who plays so loud?

Baby it s the guitar man

Who s gonna steal the show

You know baby it s the guitar man

He can make you love he can make you cry

He will bring you down

Αm

He will get you high

Something keeps him going

Miles and miles away

To find another place to play

And night after night who treats you right

Baby it s the guitar man

Who s on the radio?

You know baby it s the guitar man

When he comes to town and you see his face

Em Am And you think you might like to take his place Something keeps him drifting miles and miles away Searching for the songs to play Am (G# bass) G Then you listen to the music and you d like to sing along **G** (**F#** bass) And you want to get the meaning out of each and every song Am (G# bass) G And you find yourself a message and some words to call your own and take em home GCDGCD Em He can make you love he can get you high He will bring you down he will make you cry Something keeps him moving But no one seems to know What it is that makes him go Am (G# bass) Then the lights begin to flicker and the sound is getting dim G (F# bass) E The voice begins to falter and the crowds are getting thin Am (G# bass) G But he never seems to notice he s just got to find another place to play
