

**Pentagram
Cake**

These aren't exactly the chords that are played in the song, but they end up sounding pretty similar! This is my first attempt at figuring the chords out in a song so please let me know if I missed anything.

G **C** **G**
Your pentagram is down below our floor.
G **D**
Your naked body shimmers in the night.
G **C** **G**
Dancing and chanting in a sacrificial rite.
G **D**
Your feet are dry with the ashes from dead babies,
C **G**
Who have passed the test just like all the rest,
D
But never really understood the reasons why
C
They took it in the first place.
G
Ah, in the first place.

G **C** **G**
Your feasty eyes won't make me fall apart.
D
Your turquoise and silver won't weaken this old heart.
G **C** **G**
Yeah, dancing and chanting in a sacrificial rite.
D
I fell to the ground on a windy, windy night.
C **G**
Well I have passed the test just like all the rest,
D
But never really understood the reasons why
C
I took it in the first place.
G
Ah, in the first place.

C **G**
Well I have passed the test just like all the rest,
D
But never really understood the reasons why
C
I took it in the first place.
G
Ah, in the first place.
