Cake

Intro: **Em** - **B** (2x)

Em **C** **D**
You keep pushing me away
 B **C**
In spite of what you say
 A **B**
I found out yesterday

That I ve been wasting all my time
Trying to make you smile
Trying to make this seem worth...

While you ve been pushing me around
In spite of what I do
Trying to make things good for...

You take your economy car and your suitcase
Take your psycho little dogs
Take it all away

--- Intro (1x)

You ve been racing through my mind
You re picking up in speed
You re driving recklessly

It s like a car crash happening on my street
Broken bodies at my feet
And sirens on the way

They re too late
Cause nobody s going to save us
We re a rubbernecker s dream
We re burning gasoline

Go take your economy car and your suitcase
Take your psycho little dogs
Take it all away

--- Intro (2x) (solo)

And go
Go ahead and destroy this
Better come with an army
Are you feeling feeling okay baby?

Na-na-na-na-na-na

Take your economy car and your suitcase
Take your psycho little dogs
Take it all away

--- Intro (4x)
