

**Take It All Away**  
**Cake**

Intro: **Em** - **B** (2x)

**Em**            **C**            **D**  
You keep pushing me away  
          **B**                            **C**  
In spite of what you say  
          **A**                            **B**  
I found out yesterday

That I ve been wasting all my time  
Trying to make you smile  
Trying to make this seem worth...

While you ve been pushing me around  
In spite of what I do  
Trying to make things good for...

You take your economy car and your suitcase  
Take your psycho little dogs  
Take it all away

--- Intro (1x)

You ve been racing through my mind  
You re picking up in speed  
You re driving recklessly

It s like a car crash happening on my street  
Broken bodies at my feet  
And sirens on the way

They re too late  
Cause nobody s going to save us  
We re a rubbernecker s dream  
We re burning gasoline

Go take your economy car and your suitcase  
Take your psycho little dogs  
Take it all away

--- Intro (2x) (solo)

And go  
Go ahead and destroy this  
Better come with an army  
Are you feeling feeling okay baby?

Na-na-na-na-na-na

Take your economy car and your suitcase

Take your psycho little dogs

Take it all away

--- Intro (4x)
