Em

Gilbert works alone, late into the night

F **C** **F**

Dangling from a freeway overpass

Em

Heâ€™s welding rebar and sculpting concrete

F **C** **F**

Theyâ€™re paving in the gap way out west

Dm **Am**

Off in the distance the sleeping city shines

F **C** **F**

Raises his mask to take a look

Dm **Am**

Slips from the perch still holding onto his torch

F **C** **F**

I see him falling just like a burning star

Em **C** **Am** **F**

Out of control mmmmmmm mmmmmmm

Em **C** **Am** **F**

And heading way of course mmmmmmm mmmmmmm

Em **F** **C**

Waking up confused in a bed of thorn

F **Em**

And a world turn upside down

Em

No question asked no party ever surched

F **C** **F**

Like a blip Gilbert slips into the void

Dm **Am**

A rustle nearby and vision appears

F **C** **F**

Made from saquaro boots and rib

Dm

She takes ahold of his prickly hand

Am

And together they stand

F **C** **F**
Walk on through the ruins of a world

That lost control...

Em **C** **Am** **F**....

The most beautiful song
