There are code breakers with lines well tapped			
Traces sweeping out across the static night			
You are drapped in white like the blossoms of the tree			
Looking down a glass elevator			
At your father signing the papers for			
Two silver trees, two silver trees			
Two worlds in need, two silver trees			

F7	A#
Branches falling down	
From sources underground	
False identities	
F	G
Stranded in each single seed	

Dm	Cadd9	Dm	Cadd9
False sense of warning no poisoned cup			
Just deception crawling up like a snake			
Decay of the blossoms and roots well hacked			
Spoil the hidden waters dying at the base of			
Two silver trees, two silver trees			
Two worlds in need, two silver trees			

F7	A#
Branches falling down	
From sources underground	
False identities	
F	G
Stranded in each single seed
