

Give Me Something
Calum Scott

Here are the chords to Give Me Something by Calum Scott.
It s from his album Only Human and it s such a cool song :)

Throughout the song, syncopated G chords are used to transition between other chords! These are optional if you don t feel like playing them but I ve included them in the tab for greater accuracy. I find plucking the strings in the syncopated rhythm during the verses and prechorus much more easy than strumming. Just listen and play along with the actual song if you re not sure how they re meant to be played!

CAPO ON FRET 5
