

Do You Love Me

Cam

The chords in the verse are the same in the entire song. When you listen to it you will hear him play some Am sus s and Bm sus s.

Do you love me
Cam

Intro
Em7 D Bm Cm

Verse

Am Bm G
When I woke you after keeping you through the night
Am Bm G
You rolled out of bed and yawned and stretched your arms out wide
Am Bm G
Not realizing that the air you breathe is mine
F Am7 G
And now Iâ€™m granting you another day of life

You go to your closet and it seems thereâ€™s nothing to wear
Itâ€™s like you in a trance â€™cause all you do is sit and stare
And after coordinating your shoes to match your shirt
Iâ€™m waiting on you to talk to Me
Maybe on your way to work

Now do you really love Me? (Love Me)
You just get in your car and turn on your radio

And listen to songs that donâ€™t reflect who you are in Me
Then you call a friend to complain how much you hate your job
The same job that was an act of prayer from Me
Now being late your boss is force of saying something to you
Instead of saying Iâ€™m wrong, you quick to cop an attitude
How does that make Me look when you say I live inside of you
On Sunday you call Me Lordâ€™|
During the week you just do what you want to do.

Chorus

Now do you really love Me? (Love Me)
I created you for you to worship Me
Now do you really love Me? (Love Me)
I gave My life for you, would you give your life to Me?
Now do you really love Me? (Love Me)
Youâ€™re so valuable; I wish that you would see
Iâ€™m so in love with you

Verse

As the day goes by I need to talk to you
There's a few trials ahead I can't help you avoid
On your way home from work I thought you'd say hello
But you did the same thing
And turned on your radio
I tried to speak to you but the noise was just too loud
Plus you were singing with the songs you love so much
I wish you would sing to Me with the same amount of zeal
But I guess my songs don't have the same appeal

When you got home by now I know you should miss Me
But you just sat down in your favorite spot and watched TV
Then after a while you head to the fridge for a bite to eat
I am the bread of life, you'll starve without me

And you wonder why it seems that you don't grow
I left my Word with you to show you how to live
But you ignore it and you say you don't have time
This day's almost over, what else can I do?

Now you taking a bath and you asking can't I take you away
I hope this reminds you of your sins I washed away
You feeling at peace, this is a perfect time to pray
What would you do? Oh, what would you do?

Chorus x 2:

I created you for you to worship Me
I gave My life for you, would you give your life to Me?
You're so valuable; I wish that you would see
I'm so in love with you
