Wandering Around

Cameron Kisiel [Verse 1] The young man learned he s afraid of love After tripping for hours on psychedelic drugs The young man realized at the end of the day Life doesn t make sense but that s okay Em And he rode his bike to another world Am Where the wide eyed boy Met a psychedelic girl Who walked with him through rainbow showers And stopped with him To smell the flowers [Chorus] They sat by a creek and watched the water Trickle through the stream And in that moment the boy knew life Isn t what it seems [Verse 2] The boy saw drugs can t fill the hole Am That burned eternally in his soul And he could barely try to stand When God laid out the master plan To touch the lives of those in need To help the friends that hurt and bleed And the orange bike landed on the ground

Isn t what it seems
