

I Only Told The Moon
Camila Cabello

Gm Eb Bb F
Stay back, stay long, and you move on
Gm Eb Bb F
I stress, come close, move on, please don't

Gm Eb
Hello, how are you? How you've been?
Bb F
Lately I wonder how it feels to steal your kiss
Gm Eb
Nothing much, just fine I'm doing well
Bm F
And you can read between the lines but God, I fell

Gm Eb
I only told the moon, tonight up on the roof
Bb F
I told her that I'm scared that all my thoughts they look like you
Gm Eb
I only told the moon, about the way you move
Bb F
I asked her to please tell me if you tell things to her too

(pausa) **Eb Bb F**
Silence. Too loud. Say it, not now

C Gm Eb
So how are you? How you've been?
Bb F
Lately I wonder how it feels to taste your lips
Gm Eb
Nothing much, just fine I'm doing well
Bb F
And you can read between the lines but God, I fell

Gm Eb
I only told the moon, tonight up on the roof
Bb F

I only told the moon, about the way you move

I asked her to please tell me if you tell things to her too

That I give it all to you, I give it all to you, I give it all to you

I only told the moon

Aahhh-Aahhh and another loves song will play on the radio, you know

Aahhh-Aahhh and I ll wait for the moon to lean in close and say?

That he only told the moon, tonight up on the roof

He told me that he s scared that all his thoughts they look like you

I only told the moon, about the way you move

I asked her to please tell me if you tell this to her too

That I give it all to you, I give it all to you, I give it all to you

He only told the moon

He only told the moon
