

Scar Tissue  
Camila Cabello

**C** **G**  
I might say sorry way too much  
**Am** **F**  
Unnecessarily nervous  
**C** **G**  
I feel every damn thing again  
**Am** **F**  
The sound of your name like a cut

**C**  
I tried to hold the pieces inside  
**G**  
Tighter I held it, felt like a knife  
**Am** **F**  
Blood from our oath falls on your hands, not mine  
**C**  
I used to laugh, just like a child  
**G** **Am**  
I feel okay, just for a while, yeah  
**F**  
Then I realized

**C**  
All I m left with is this scar tissue  
**G** **Am** **F**  
Battle wounds after surviving you (oh)  
**C**  
I m left with all the bruises, excuses  
**G** **Am** **F**  
The truth is: trying to restart, that s the hardest part  
**C**  
The scar tissue

**G** **Am** **F**  
Ooh, ooh, ooh  
**C** **G** **Am**  
The scar tissue, ooh, ooh, ooh  
**F**  
That s the hardest part

The scar tissue

**C** **G**  
Secretly dangerous  
**Am** **F**  
The hurt that you re capable of  
**C** **G**

I couldn't see you coming if I tried

**Am** **F**

You pulled the trigger and hid

**C**

I tried to hold the pieces inside

**G**

Tighter I held it, felt like a knife

**Am** **F**

Blood from our oath, those are your hands not mine

**C**

I used to laugh, just like a child

**G** **Am**

I feel okay, just for a while, yeah

**F**

Then I realized

**C**

All I'm left with is this scar tissue

**G** **Am** **F**

Battle wounds after surviving you, oh

**Am** **F**  
But I m getting closer to it everyday

**G**  
Closer and closer til you fade away

**F**  
All I m left with is the scar tissue
