

U Shaped Space
Camila Cabello

[Verse 1]

I woke up just to miss ya
I woke up just to check if my phone would start to whisper
You said you needed time so I made the clock move quicker
Honestly, you were my only friend
I hate to say I need ya
Look for you in everyone and all it does is feed the
Urge to call you up so I made myself delete ya
Jenny said it s the right thing to do

[Pre-Chorus]

Tell me is it;
Loud where you are dear?
There s a silence here
Where are you anymore? (oh-oh)

[Chorus]

Cause there s a u shaped space where your hands used to be
Baby, there s a pillowcase where you lay next to me
It s 3 AM, you know, I know, can t cure the vacancy
Oh baby, baby there s a u shaped space where your hands used to be

[Interlude]
