If I had a little time
                          C          Em
Maybe I could start to find my way out
G                        Am
But every time I move my feet
                        C          Em
Dance my way onto the street, I lose it

G                              Am
Thereâ€™s still beer cans on the step
                      C          Em
I pretend that I have kept on purpose
G                        F
But when the trashman comes around
                        D
I just start to feel so down I canâ€™t move
