

Blue Mountain River
Cara Dillon

C G Am G C
Blue mountain river, if only for a while,
C G Am G C
Take me to the river, and lay down by your side,
Em Am C G Am
The world is full of madness and I find it hard to smile,
F G Am G C
I ll sleep within through winter and wait for summertime.

(The rest of the verses are exactly the same)

Blue mountain river, comfort me a while,
I ll follow down the river, follow you til night
I listen to you whispers, you dance in time to mine,
We ll stay awake together watching silver in the sky.

Blue mountain river, I wanna rest a while,
You re changing my reflection and the seasons in my mind,
Let these days go on forever, I ll leave in my own time,
Take me where you re going and I ll be right by your side.

Blue mountain river, I went there for a while,
I listened for an answer and I found it deep inside,
When I m lost behind the shadows and I wanna run and hide,
My blue mountain river is there right by my side.
