Shine
Carbon Leaf
standard tuning, no capo

VERSE 1
```
A            G   D
Why should I    shine out?
A          G   D
It’s boring     snoring
A          G   D
I’d like to    teach me to
A          G      D      A
Sing in perfect harmony
A                G    D
And I’d like to      change the world
A      G        D          A
It’s easier than changing me
A                G  D
And I’d like to    find one girl
A
Who knows me
```

PRE-CHORUS
```
G              D
Strum bang the drum aloud
    G               D
or put it down and figure out
   Am    E        D
if I m  out of line
G              D
Sit around and figure out if
Am  E          D
I m wasting time
```

CHORUS
```
A                  G    D
Wait for the sign                      X2
A          D    A    G
It s time to shine shine shine
```
