

## Careless

Carly Pearce

[Verse 1]

Don't call me **G/B** **Am**  
I've heard it all before the last time you said you were sorry **F** **C** **G/B** **Am**  
And all this back and forth is getting old **F** **C/E**  
You're just the boy who cries love **G/B** **Am**  
Then you turn around and run **F** **C/E**  
Yeah, you're the boy who cries love **G/B** **Am**  
You do it just for fun **F/A**

[Chorus]

And baby, you were careless with my heart **G/B** **Am**  
Said forever then you let it fall apart **G** **C/E**  
You left me crying there on the floor, walked out the door **G/B** **Am**  
Like it was nothing **G**  
And baby, you were reckless with my love **G/B** **Am**  
I gave you all I've got, you just gave it up **G** **C/E**  
So it doesn't matter how much you've changed or the look on your face **G** **Am**  
When you say you want me, you miss me tonight **F**  
Baby, I could care less **G** **Am**

[Verse 2]

And I know you **G/B** **Am**  
And all the empty breath of your promises **F** **C**  
No, it ain't nothing new **G/B** **Am**  
The only thing different is me **F** **C/E**

**G/B**                          **Am**  
Cause you re just the boy who cries love  
          **F**  **C/E**  
And I took you back every time  
                          **G/B**                          **Am**  
Yeah, you re the boy who cries love  
                  **F/A**  
Oh well, not tonight

[Chorus]

**G/B**                          **Am**  
Baby, you were careless with my heart  
                                  **G**                          **C/E**  
Said forever then you let it fall apart  
                          **G/B**                          **Am**  
You left me crying there on the floor, walked out the door  
                  **G**  
Like it was nothing  
                          **G/B**                          **Am**  
And baby, you were reckless with my love  
                          **G**                          **C/E**  
I gave you all I ve got, you just gave it up  
                  **G**  **Am**  
So it don t matter how much you ve changed or the look on your face  
                  **F**  
When you say you want me, you miss me tonight  
                          **G**                          **Am**  
Yeah, baby, I could care less  
                          **G**  
Yeah, baby, I could care less

[Bridge]

**Am**  
I m calm, cool, collected  
          **G**  **Am**  
Keeping my heart locked up, protected  
          **G/B**  **Am**  
Now all your begging and pleading is bouncing back to you  
          **F**  
An echo in the cold hard truth  
                          **G/B**                          **Am**  
That you re just the boy who cries love  
                          **G/B**                          **Am**  
You re just the boy who cries love  
          **F/A**  
Well, I hope you have fun

[Chorus]

**G/B**                          **Am**  
Baby, you were careless with my heart

**G** **C/E**  
Said forever then you let it fall apart

**G/B** **Am**  
You left me crying there on the floor, walked out the door

**G**  
Like it was nothing

**G/B** **Am**  
And baby, you were reckless with my love

**G** **C/E**  
I gave you all I've got, you just gave it up

**G** **Am**  
So it doesn't matter how much you've changed or the look on your face

**F**  
When you say you want me, you miss me tonight

**G** **Am**  
Yeah, baby, I could care less

[Outro]

**G/B** **Am**  
You're just the boy who cries love
