

Settle
Carmen

[Intro] **D A**

D

Let s look at pictures from 2013

A

And talk out of our asses
Of who we used to be

D

You ve been inside my thoughts ever since

A

I could even write you a sin
If you re sick of the tragedies

D

Of this town
I feel down
Playing EarthBound

A

And not wanting to be found

D

I think you ve had enough

A

From that phone call
I remember that you said that we should

D

Settle down, settle down

A

Settle down, I m on my way
Maybe we should

D

Settle down, settle down

A

Settle down, I m on my way

D

I miss those afternoons we spent on the couch

A

Hiding from your dad
While he walked around the house

D

I probably think about this too much

A

But how much is too much?

D

We broke up
I broke down
I ll shut up
And make sounds

A

But you won t even care
If I sing about the colors of your hair

D

(I wish I could live this again)

A

So I could write the same song for the same girl
From the same five years ago, but won t you

D

Settle down, settle down?

A

Settle down, I m on my way
Maybe we should

D

Settle down, Settle down

A

Settle down, I m on my way
Oh, won t you

F

Settle down, settle down?

A

Settle down, I m on my way

(**D** **A**)
