I was just leaving - the night was winding down

You touched my shoulder and I turned around

Here we are - the hardest part is done
C Bm D G
And all that s left is loving you forever.
G Em C D
My heart stopped beating-I couldn t let it show
G Em C D
You were as unexpected as roses in the snow
C D Bm C
Just like that I knew you were the one
C Bm D G
And all that s left is loving you forever.

[Chorus]

In this world we re lucky if we find
A
A spark that sparks one time
C D
Like when we are together.
G Em C D
And in that moment, it happened so fast
G Em C D
My prayers were answered - I found love at last
C D Bm C
Take my hand - our life has begun
C Bm D G
And all that s left is loving you forever
C D Bm C
Here we are - the hardest part is done
C Bm D G
And all that s left is loving you forever
