F#

```
I Told You So
Carrie Underwood
Intro: F# Bbm G#m
Verso:
  F#
Suppose I called you up tonight
And told you that I love you
     B/G
                                     F#
                    C#
And suppose I said I wanna come back home
                                        F#
                                                 C#/F#
                                                             Ebm
And suppose I cried and said I think I ve finally learned my lesson
And I m tired of spending all my time alone
If I told you that I realize you re all I ever wanted
        B/G
                      C#
                             F#
And it s killin me to be so far away
         B/G
Would you tell me that you love me too
       C#/F# Ebm
And would we cry together
                                    C#
Or would you simply laugh at me and say...
Refrão:
 B/G
         F#
                      Bbm
                             B/G
I told you so... Oh I told you so
                                      C#
                                                                           C#
I told you someday you d come crawlin back and askin me to take you in
          F#
                         Bbm
                                B/G
I told you so... but you had to go
                                             C#
                                                                           F#
            G#m
      F# Bbm G#m
And now I ve found somebody new and you will never break my heart in two again
Verso:
                                        Bbm
If I got down on my knees and told you I was yours forever
          B/G
                          C#
Would you get down on yours too and take my hand
Would we get that old time feelin
                   C#/F#
Would we laugh and talk for hours
The way we did when our love first began
```

Bbm

Would you tell me that you ve missed me too and that you ve been so lonely B/G C# F#

And you ve waited for the day that I returned

B/C

And we d live in love forever

F# C#/F# Ebm

And that I  ${\tt m}$  your one and only

G#m C#

Or would you say the tables finally turned Would you say...

(Refrão)
