

It Still Remains
Cartel

Hi, guitar isn't really my first instrument but I noticed that there wasn't a tab for this song, it's amazing so I thought I would have a go! I couldn't get all of the middle 8 bit and a little at the end but the majority of the song is in there!
If you can help me out that would be great because it's my first tab. Thanks

D

It still remains

G

And I can't pretend it's gone

A

G

Count on me, to remember who you are

D

And it still remains

G

What if you were wrong?

A

G

I shouldn't let, I shouldn't let you get too far

A

G

What do I, I have to lose?

A

G let ring

What do I, I have to do?

D

Is there any other way
To stop thinking about

G

Any another day?
We've got to figure out

A

I don't want to lose you

G

A

After all we've been through

D

Is there nothing I can say
To turn you around?

G

Maybe that's the way

A

G

To stop thinking about all those yesterdays

A

That still remain?

Repeat sequence- **D, G, A, G**

It's killing me
