

Save Us
Cartel

This is the ORIGINAL version of Save Us.
My favourite really.

Tuning
DGCACd (One step down open D)

D **Em**
Simple words we never knew,
D **G**
The power behind what they put us through,
D
Now it s all begun
Em **Bm** **A**
What it takes to make it real.
D **Em**
We re standing on the edge of this,
D **G**
When our soul is gone what will we miss?
D **Em** **Bm** **A**
We lost what it takes to really make it feel.

Em **G**
But the better days behind us now,
Bm **A**
We all need someone to tell us how
Em **G**
To save the state of where we are,
Bm **A** **D**
Its keeps demanding more and more and more.

Asus2
And who will save us?
G **Em**
This can t go on, without the meaning in the rhyming.
D **Asus2**
Can you save, can you save us?
G **Em**
I can t go on out of rhythm without time.

D Em D G D Em Bm A

D **Em**
We hold this truth self evident,
D **G**
The lies we used to represent
D **Em** **Bm** **A**

Who we are, because it was never meant to be.
