

**Cant Take My Eyes Off Of You**  
**Cary Brothers**

This song is a beautiful song... I heard it on Smallville of course... I sang it for my and I teared up. It is really a moving song if you really get into it...

I tune my guitar a half step down. So, Capo 5 for this song, but Standard it is Capo 4.

It is picked, but strumming sounds great too. The high pitch pick is the bottom E  
So you really just have to listen and play to figure it out. I m not sure of the technical  
haha

If you re really good at picking and singing than that is a pretty simple riff all the through the song... except when it hits the second chorus. It s still in Em, but there is different pitch I m not sure. Feel free to correct me if I m wrong. This is my first tab chord set I ve posted.
