

Ready For Love
Cascada

I realized this tab isn't anywhere on the web so I figured I'd be the one to shed some light.

I quickly realized the entire chord progression for this song is:

Em C G D

Em **C**
You took a piece of my heart

G **D**
I never thought that this could fall apart

Em **C**
You said you fell in love

G **D**
and this was more than I had ever been afraid of

Em **C**
Another life

G **D**
Another happy ending, it cuts like a knife

Em **C**
Another place, another time

G **D**
Another hand to touch, Another sun to shine

Em **C**
You've got me Deeper than deep and I'm constantly blinded

G **D**
Running around cause there's no where to hide

Em **C**
I start to talk in my sleep cause our souls are divided

G **D**
why can't they forgive me the demons inside

etc...
