

You Just Well To Let Her Go
Casey Bill Weldon

The song on youtube if you need something to practice along with

The F Dm7 C Am looks more daunting than it is, if you don't use your index finger to barre the entire first fret and instead use it to barre the two highest strings (B + e), you just need to lift your pinky and ring fingers to easily get from one to the other.

It's great practice for learners because those chords come at ya hard and fast.

From 1936, these are the chords to a great slide guitar song

YOU JUST WELL TO LET HER GO

C = X32010
D = XX0232
F = X33211
Dm7 = XX0211
Am = X02210
G = 320003
