Verse 1 (**Em-G-C-D**)

My clothes they smell like the hotel lobby
I ain't got no hobbies
Except you with me.
Can't put a saddle on
This cloud I straddle
The one shaped like you
With a number 9 tattoo

Verse 2 (**Em-G-C-D**)

I like to wear a whiskey smile
She puts on make up
It takes a while.
Her hair is sun bleached
Just like yours was
Last December
We caught a good buzz (with my heart of sawdust???)

(**Em-G-C-D**)

It hasn't rained in 16 days here
You're in a fog now (now|)
I've got my head clear
We've both fallen for monsters in the closet
I've been thinkin' about it, you've been what I'm wantin'

Chorus: (**C-D-Em-G**)

And uh oh
We're so close
To fallin' for each other, should we even bother?

(**C-D-Em**)

You make me better|
And uh oh
Those walls (fall|) like
My faith fell
When you left town
(You make me better)

Verse 4 (**Em-G-C-D**)

I guess I missed you
In church last Sunday
Johnny 3:16 took my breath away
Talked to Laura, works down at the hotel
She said that you checked in

I think that Iâ€™ve checked out

Bridge: (**Em-G-C-D-C**)-PALM MUTE

Well itâ€™s 4 in the morning and Iâ€™m sick of it

This puzzle piece chick donâ€™t seem to fit.

Got me tongue tied over you again

Like a Ferris wheel baby givinâ€™ me the spins.

Yeah my hearts like a brick it tends to sink

Iâ€™m on the edge right on the brink

Yeahâ€|I want you sleepinâ€™ next to me (drum build up)

Yeahâ€|I want you sleepinâ€™ next to me

Chorus (2x)
