Verso: **G# - C# - Bb - D#**

Let s go

Follow me outside

And I know it won t be long till

I m holding your hips tight I know you want to

Leave them all behind

So let s catch a cab down town now

And light the fire up and make it right

Pré-refrão: **C# - D#**

Cause There s nobody home tonight

Refrão: **G# - C# - Bb - D#**

Break out and take it to the floor

So I can take you on and give you all the things All the things we re not supposed to do

Break out and take it to the floor

We ll finally be alone just take me home with you tonight
