[Intro]
F# C# Ebm B

[Verse]
```
F#                       C#
At 7 years old everything was right
Ebm                     B
Table for four on a Friday night
F#              C#                 Ebm          B
Didn’t see any signs of a dead end road

       F#                    C#
By the time I was 10 everything was changing
Ebm                 B
Fell asleep every night prayin
F#          C#          Ebm          B
Didn’t know which way to go

F#                       C#             Ebm              B
Mama did her best to hide her anger
       F#             C#             Ebm              B
And I did my best to try and save her
```

[Chorus]
```
        F#                        C#
I was a little too young and a little too dumb
   Ebm             B
To ever think the day would come
     F#                        C#
When dad would drive away
               Ebm              B
And take his love with him

     F#                      C#
So I grew up fast in a whole new world
Ebm                 B
Waved goodbye to that little girl
F#            C#          Ebm          B
I can see her now — innocent and 7
```

```
        F# (once)     C# (once)
I wish I had never turned 11

F#  C#  Ebm  B     x2

[Verse]
F#                C#
We moved into a smaller house
Ebm               B
How mama did it oh I donâ€™t know how
F#             C#           Ebm         B
Never went to bed without eating

   F#                   C#
At thirteen I finally realized
Ebm                 B
What it means to get on with your life
   F#                  C#            Ebm           B
But daddy sure did and he made it look easy

F#                    C#             Ebm             B
Mama did her best to hide the struggle
F#                    C#             Ebm             B
And I did my best to stay out of trouble

[Chorus]
       F#                    C#
I was a little too young and a little too dumb
   Ebm             B
To ever think the day would come
    F#                      C#
When dad would drive away
            Ebm              B
And take his love with him

   F#                   C#
So I grew up fast in a whole new world
Ebm              B
Waved goodbye to that little girl
F#             C#          Ebm        B
I can see her now â€“ innocent and 7
      F#             C#          Ebm           B
I wish I had never turned 11

[Bridge]
  F#                   C#
I wish that I could turn back time
    Ebm               B
And tell myself will be alright
  F#                 C#          Ebm*   C#*      F#*
Youâ€™re never gonna lose a lot in... your... eyes...

*once
```

```
[Chorus]
         F#                              C#                   Ebm                  B
I was a little too young and a little too dumb
         F#           C#          Ebm             B
To ever think the day would comeâ€¦

     F#                    C#
So I grew up fast in a whole new world
Ebm                B
Waved goodbye to that little girl
F#                 C#               Ebm             B
I can see her now â€" innocent and 7
         F#            C#             Ebm            B
I wish I had never turned 11
         F#             C# (once)
I wish I had never turned 11

F#     C#    Ebm     B

       F#              C#                Ebm            B ...
I wish I had never turned 11
